## SAFA SHAIKH

https://safashaikh.github.io/portfolio | GitHub: https://github.com/safashaikh Chicago, IL, United States | M: 6095754277 | safa.shaikh97@gmail.com |

### **EDUCATION**

Columbia University School of Engineering

New York, NY

May 2022

May 2019

Master of Science in Computer Science – Machine Learning

**GPA: 3.8** 

**Rutgers University School of Engineering** 

New Brunswick, NJ

Bachelor of Science in Electrical and Computer Engineering

**GPA: 3.9** 

Bachelor of Arts in Computer Science

#### **WORK EXPERIENCE**

**Lockheed Martin** Remote

Senior AI & Machine Learning Engineer for AI Factory

March 2022 - Present

- Built internal operations CLI to automate deployments for ML workspaces, jobs (Ray and k8s), data volumes, data pipelines, etc
- Tested and hosted latest open source ML models, including LLMs such as Mistral and Llama models, on internal server for developer usage e.g. Segment Anything -- enabled bounding box, point and segment everything options through a hosted KServe instance
- Built finetuning as a service pipeline using Flyte and a hosted Lorax server
- Hosted KServe and TGI models on Foundation Model Platform
- RAG pipelines with internal data

**Lockheed Martin** Moorestown, NJ

Software Engineering Intern, Associate Software Engineer, Software Engineer I & II (AI/ML) May 2017 - July 2019, July 2019 - March 2022

- Worked on OASIS Simulation Training Product for Aegis Weapons System (AWS) (C++ code)
- Built and maintained prediction algorithm libraries for internal developers
- Led the prediction team as part of greater R&D efforts
- Data preparation and preprocessing

**PreCalculus Tutor** New Brunswick, NJ Private Tutor July 2016 - August 2016

Taught high school students the fundamentals of function analysis, limits, and function characterization.

**Rutgers University** New Brunswick, NJ

Tour Guide and Student Ambassador

February 2016 - April 2016

Led a weekly presentation informing prospective engineering students about opportunities in the ECE Department

### RESEARCH EXPERIENCE

# NeuroImaging Laboratory at Rutgers University with Dr. Laleh Najafizadeh

New Brunswick, NJ

Research Assistant

May 2016 - July 2016

Researched Brain-Computer Interface (BCI) paradigms - provide a neural pathway for the human brain to interact with a computer program or robot in order to stimulate motor activity; Constructed brain caps compatible with the Functional Near-Infrared Spectroscopy (fNIRS) machine and the electroencephalogram (EEG).

## TECHNICAL SKILLS

Environments: PaaS (OpenShift), Linux, macOS, Windows

Languages (On scale of 0-10 where 10 is most proficient)

- Python (10)
- C++(7)

- JavaScript (3)
- XML (6)

Java (8)

YAML (6)

HTML (6)

**JSON (8)** 

- TypeScript (3)
- SQL (8)

CSS (6)

#### Development

Artificial Intelligence, Machine Learning, DevOps, Agile Development, Big Data, Data Analytics, Object-Oriented Programming

#### Frameworks/Tools

REST, TensorFlow, SciKit Learn, PyTorch, Keras, Kserve, TGI, HuggingFace, Django, Kafka, GitLab, KubeFlow, Spark, Trino, Git, OpenShift, Docker, AWS, Angular, MongoDB, SQL Server, MySQL, PostgreSQL, VI/Vim

### RELEVANT COURSEWORK

- Systems Programming
- **Data Structures**
- Linear Systems and Signals

Probability and Rand. Proc

Artificial Intelligence

- Computer Architecture
- Software Engineering
- Electronic Devices

Robotics & Comp Vision

Machine Learning

- **Databases**
- Digital Sys Design (FPGAs)
- Principles of Electrical Engineering I & II
- Capstone Design Lip Reading Android App with Neural Networks https://www.youtube.com/watch?

## **HONORS**
